

Data Science Internship @ Boxfish

Aerin Kim

How did I find the internship?

- <http://www.sjsu.edu/careercenter/students/spartajobs/>

The screenshot shows the SJSU Career Center website. At the top, there's a header with "CAREER CENTER" and "SAN JOSÉ STATE UNIVERSITY | DIVISION OF STUDENT AFFAIRS". A search bar labeled "Search SJSU" is on the right. Below the header is a navigation menu with links: "Students", "Employers", "Faculty/Staff", "Alumni/Community", "Parents/Prospective Students", and "About Us". A breadcrumb trail reads "SJSU Home > Career Center > Students > SpartaJobs". The main heading "SpartaJobs" is prominently displayed. Below it, a "Welcome to SpartaJobs!" message is centered. On the left, a text block describes SpartaJobs as an exclusive online job and internship database for students and registered alumni. On the right, a "Student Login" box contains fields for "Username:" and "Password:", a "Go" button, and links for "New user?" and "Forgot your password?". To the far right, a vertical list of links includes "MySJSU", "Canvas", "Athletics", "Give to SJSU", "Facebook", "Twitter", "LinkedIn", "Pinterest", "YouTube", "Instagram", and "RSS".

Boxfish

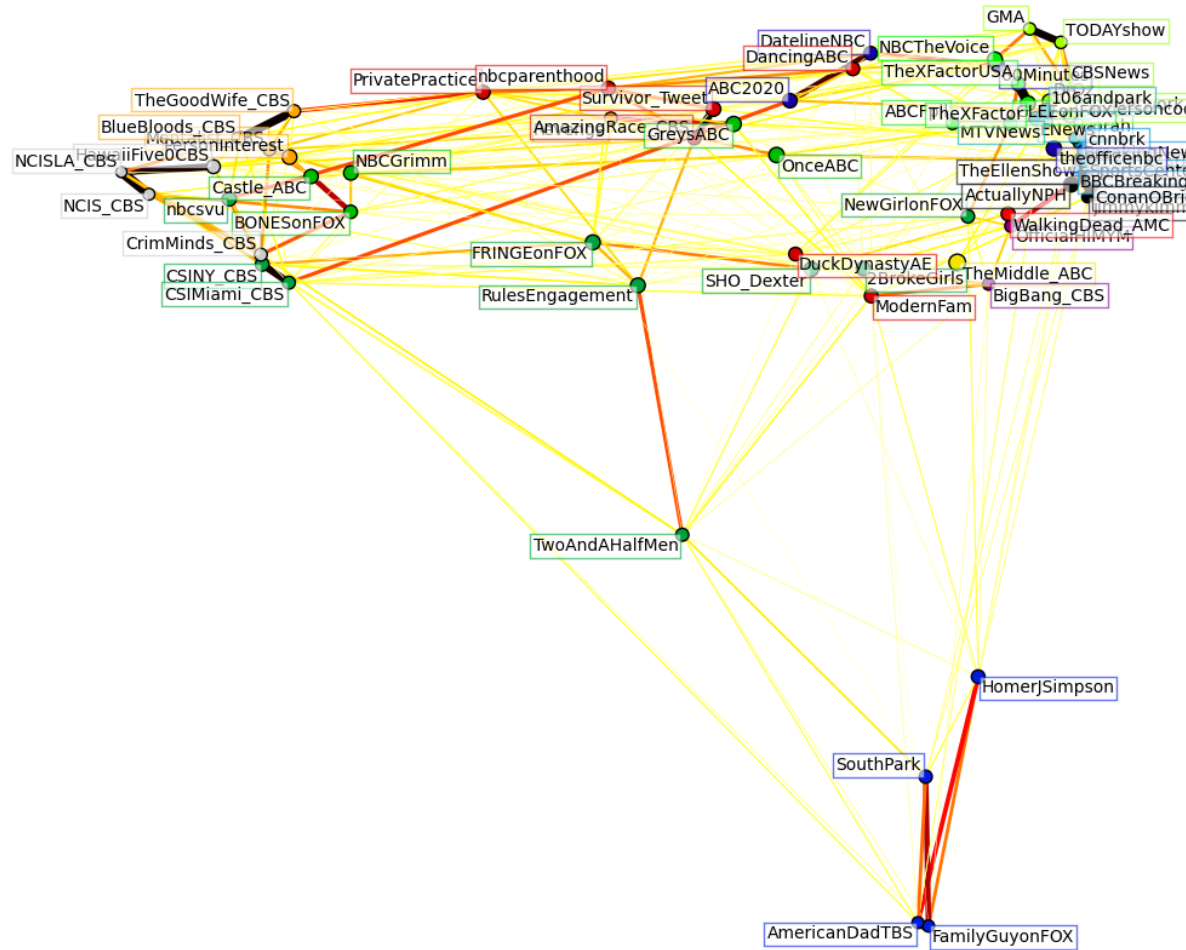

Program that I used

- Python
 - Modules
 - NetworkX
 - Tweepy (OAuthHandler)
 - Pandas
 - Pickle
 - Urllib
 - threading

Projects

1. Find the people who are most likely to click the Ad
2. Find shows that have the most similar profile
3. Find out what people are talking about right now (Tweet Box)
4. Real time bidding project
