   C. Identify what are the protocols for Student Union cost recovery
   D. Request meeting with CFO to review the Operating Agreement and agree to completion timeline.

VI. MEETING ADJOURNMENT

The Student Union Board of Directors is a public body, and members of the public have a right to attend and participate in its meetings. This schedule is established as a best approximation of how long each scheduled meeting will take to complete its business. Depending on the length of the discussions, which are not possible to predict with precision in advance, the scheduled meeting times indicated may vary widely. The public is advised to take this uncertainty into account in planning to attend any meeting listed on this schedule.
I. My interest in higher education administration began while I earned my BA in History at UCLA. Serving as a resident hall president and then as the undergraduate student body vice president, and then while in law at UCLA serving as the graduate student body president, I began to understand the complexities of governing a higher education community.
   a. Chaired of the ASUCLA Board of Control. ASUCLA is an unincorporated body that runs the Ackerman Student Union, has authority over most of Kirchhoff Hall, a North Campus Union, all cash operations food services, the college store and an array of other services. While not covered by a statute like the Education Code sections applicable to your organization and all other CSU auxiliaries, it operates in a way very similar to CSU auxiliaries.

II. After taking the California bar exam, which I happily passed on my initial try, UCSD engaged me to be the director of their small university center. In this position I was confronted with what to do when a student-initiated fee (the University Center fee) was being used to support services/programs that were not part of the UC.

III. My interaction with CSU auxiliaries began 3 years post law school (1976) when I was appointed the General Manager of the A.S. at CSU-Chico.
   a. During my 8 plus years in this position, I did extensive work with AOA and the Chancellor’s Office.
   b. The latter included representing auxiliaries on a task force assigned with updating and revising those sections of Title 5 applicable to auxiliaries.

IV. In my tenure at Chico, I interacted with 3 University Presidents. Significant effort went into developing positive relationships with Chico’s downtown business district and with all elements of the University. The last University President while I was the AS-General Manager functionally wanted the bookstore, food service and student union to report to him and not the Board of Directors as specified in its articles of incorporation and CSU policies. As we work through the PowerPoint, we will discuss how this was resolved.
   a. While at Chico, I was recruited by the University of Houston to be its assistant vice president – student affairs. In this position I was responsible for a 500,000+ square foot student union, a small satellite union, all campus food services (outsourced – I negotiated a new contract), the campus bookstore, student activities, student government, the student newspaper and other programs. There was an advisory committee on the student union, whose recommendations I could choose to ignore. Unlike your organization, all of the functions reporting to me were University departments.

V. University of Houston I began my legal and management consulting practice. With an appointment as a visiting scholar at the Institute for High Education, I wrote a monograph on out-sourcing university auxiliary services. This effort was also supported by several national higher education associations and sold widely across the U.S. My next project was to research and author Protecting Your Organization’s Tax-Exempt Status published by Jossey-Bass.

VI. Appointed Professor of Business and Law at what is now the American Jewish University, 1990. There I taught an array of undergraduate courses (business law, accounting, the first-year seminar, special topics course like The Environment and the Economy, and constitutional law. In the MBA Program, with its focus solely on the nonprofit sector, I taught human resource management and The Law and Taxation of Nonprofits. In this position I earned tenure.

VII. Vice President-Administration, 1996.
   a. I was promoted to Senior Vice-President and Chief Operating Office. I was also recognized as the University’s in-house legal counsel.
b. I served as the Senior Vice President until 2011, when I exercised my retreat rights and returned to my position as a full professor.
c. In the Senior Vice-President role, I also served for multiple years as the Provost, successfully gaining the University a 10-year reaccreditation.
d. Served as a member of the Senior Commission of WASC for 6 years, serving on the executive committee for 4 years.

VIII. Consultant
   a. First Consultation - Franciscan Shops at SFSU.
   b. Over the years I have done a range of assignments with more than a dozen CSU auxiliaries and made multiple presentations for AOA.
   c. Currently, legal counsel to the ASI at CPSU-Pomona and to the AS at HSU.
   d. Other current clients are general nonprofit organizations having me addressing an array of tasks from a recently completed merger, being an expert witness on nonprofit law and assisting a few entities to update their operating documents.
   e. Student Union at San Jose State University, 2013
