SILICON VALLEY
INNOVATION CHALLENGE

Faculty & Alumni

Empower the Future Generation!

Ready to innovate?

Start the challenge here!

The SVIC is an annual event that promotes innovation and entrepreneurship by allowing participants to showcase their innovative ideas.

The SVIC was an incredible experience for Garden to Table. In addition to winning 2nd place for social innovation, we received a lot of interest and valuable feedback that helped us refine the concept and spurred us onwards. As a result, Garden to Table recently became a non-profit with a land use agreement in place to build the farm and launch our idea into reality!"

Zach Lewis

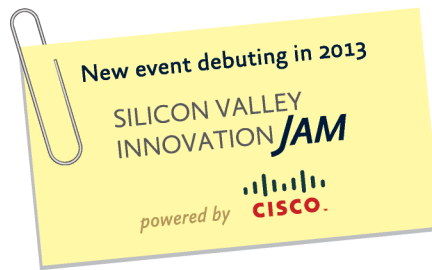

Executive Director, Garden to Table

Why enter the SVIC?

Innovate. Transform ideas of today into the reality of tomorrow. Make change happen... now!

Network. Connect with like-minded individuals, industry leaders, experts and prospective mentors. Enhance your professional presence and develop your innovative idea!

Enlighten. Introduce your ideas to the world, inspire others with your vision, and leave your mark!

The SVIJ is an all day event that allows participants to work in teams, perfect the idea generation process and formulate revolutionary ideas!

Do you have a CREATIVE IDEA?

The SVIC welcomes all students, faculty, alumni, and staff to enter the challenge as well!

Innovation and creativity is taught in universities by faculty all over the world. Here is your chance to see your students succeed in the real world using the concepts and theories taught to them inside the classroom.

Encourage the youth to enter the challenge and share their creative and innovative ideas.
