

Podcast Assignment

Context

This assignment was a culminating final project for my Script Analysis class. During the course of the semester, students read and analyze play scripts, i.e., dramatic literature. The plays discussed range from Shakespeare to contemporary playwrights. I invited local, professional playwrights to be interviewed for the assignment. The assignment was designed to be a culminating project for the semester and to be a fun and creative way for students to demonstrate their understanding of the material.

module and be inspired by
podcast (one group went completely off
day of class)
rehearsal prior to recording the
the “mock” interviews to prepare
workshop for students
many voices are confusing in audio)
should be informative but also
avoid any “school presentation” type of
work creatively)
