C. Criteria for Equivalent Experience

Rationale: Given the requirements under SB2042, all candidates in a multiple subjects credential program must complete an extensive field experience that offers opportunities to develop significant understandings of pedagogy and practice engaging diverse students in learning. Candidates entering the program with significant classroom experience may apply for “course equivalence” in the same manner as other courses in the program. An application must be submitted with documentation relevant to the criteria below. EDEL 143A/B faculty will review the application and determine if the experience is “equivalent”. The department chair will provide final approval.
