

**San José State University / Moss Landing Marine Labs
Moss Landing, California
ANNOUNCEMENT OF POSITION AVAILABILITY Subject
to Budgetary Approval
Visiting Scientist AY 2021-2022**

Rank: Full or Part-time Temporary Academic Year Visiting Position in Marine Science, rank to be determined by terminal degree and experience

Moss Landing Marine Labs, a consortium of seven California State University Campuses (CSU) and administered by San José State University (SJSU), is located on Monterey Bay. The faculty emphasis is on integration of mentoring, teaching, and research; and the excellent facilities and staff contribute to make this a renowned program for a Master's degree in marine science. Since its establishment in 1966, MLML and its leading scientists have contributed significantly to the advancement of the field of marine science, both in Monterey Bay and worldwide. The MLML Visiting Scientist position was established in 1984 by a resolution of the MLML Governing Board to enhance the opportunity for professors from the seven MLML consortium campuses (SJSU, CSU East Bay, CSU SF, CSU Sac, CSU Stanislaus, CSU Fresno, CSU Monterey Bay) to conduct research and collaborate with the MLML faculty and students during an academic year, in-residence appointment. The funding support for the position is provided equally by the consortium campuses.

Qualifications: A Ph.D. is required. Applicants should be scientists in good standing and have research interests (to be pursued independently or in cooperation with specific faculty member) that are of overall interest to the MLML faculty and student body. In lieu of research, the applicant may propose teaching courses generally not offered at MLML but that would be of value to the MLML student body. Applicants should have awareness of and sensitivity to the educational goals of a multicultural population as might have been gained in cross-cultural study, training, teaching and other comparable experience. Applicants are encouraged to contact appropriate MLML faculty members to discuss possible participation at the Labs.

Responsibilities: Responsibilities include ability to teach effectively and perform research in the applicant's area of expertise. Candidate will be expected to coordinate the weekly seminar series with assistance from the faculty and students. Candidate must address the needs of a student population of great diversity – in age, cultural background, ethnicity, primary language and academic preparation – through course materials, teaching strategies and advisement. Candidates should have proven record of peer-reviewed research publications.

Salary Range: Commensurate with qualifications and experience according to the [SJSU faculty pay scale](#) subject to available funding. Salary may be supplemented by grant activity.

Starting Date: Beginning of Fall 2021 semester. Appointment may be for one semester or for one academic year.

Eligibility: Employment is contingent upon proof of eligibility to work in the United States. Faculty from consortium campuses will be given preference in selection.

Application Procedures: For full consideration send a letter of application, curriculum vitae, statement of teaching interests / philosophy and research plans, professional goals and accomplishments, and contact information for at least three references to the address or email below by **July 1, 2020**:
