

BAY AREA ASSESSMENT SERVICES

(updated January 2020)

Psychological testing and assessment can be useful in identifying, diagnosing and understanding how cognitive and psychological factors such as memory, attention, planning, organization, perception, and emotion influence your learning, behavior, and performance at work, at school, or in other areas of your life. The following programs offer sliding-scale and low-fee testing services to residents in the Bay Area.

Community Health Awareness Council

(650) 965-2020

590 W. El Camino Real
Mountain View, CA 94040

Fees vary, sliding scale based on income.

Testing is a full neuro-psychological assessment.

Can take from 3-7 hours.

<http://www.wi.edu/wi-clinical-services-assessment-services>

Need to leave a message on voicemail, service period is from August – June, and there may be a waitlist

UC Berkeley

(510) 642-4459

2205 Tolman Hall, #1650

Berkeley, CA

Sliding Scale: \$750-3000

Cash or check only

<http://psychology.berkeley.edu/clinics/specialty-clinics>

Their services may also be in high demand.

Need to see if they are accepting new referrals.

Please note that the Counseling Services Department at SJSU is not affiliated with any of these organizations and does not promote or endorse their services.
